

U.S.A. MADE — NEW & IMPROVED
BILLET FORWARD CONTROL KITS
FOR BIG TWIN 1936 THRU 1999

REPLACEMENT RUBBER KITS

- 22-191** For Shift/Brake pegs.
22-192 For foot pegs.

SOLD AS KIT

Our Chrome Horse® II billet forward control kits have been updated! These new kits for Big Twin now have the brake side footpeg mounted on a common pivot with the brake arm, which offers increased ground clearance. We have also introduced a new fold-up footpeg option for the rider that likes to “drag it all” through the turns. 3/4” Bore master cylinder is now more compact and stills features a back side exit for clean looks for the brake line. Really smooth action on the levers. These babies are nice, and at this price, they’re twice as nice! Available in chrome plated or polished finish. Replacement rubber kits now also available. **U.S.A. MADE.**

SOLD AS KIT

| FORWARD CONTROL KIT | STOCK LENGTH WITH FIXED FOOTPEGS | 2” EXTENDED WITH FIXED FOOTPEGS | STOCK LENGTH WITH FOLD-UP FOOTPEGS |
