

## CONTINENTAL TIRES

A

### A. CONTI MILESTONE - CRUISING / TOURING

Specifically engineered for heavy touring bikes & cruisers. Best all-weather tire on the market. Exclusive ASC "Activated Silica Compound" technology sets a new standard for wet grip & mileage. Latest silica compound & carcass design technology offer exceptionally high mileage, wet grip, load carrying capacity, & comfort. Extremely high mileage due to wear resistant compound, deepest tread depth available, and breaker construction which enables even pressure in the contact area. Unmatched stability on road seams & rain grooves. Can be matched with the ContiTour (TK16/17) to fit a wider range of bikes.

- 4-300 130/90H16 CM2 Rear (reinforced), SOLD EACH  
tube/tubeless, black wall.
- 4-301 130/90H16 CM2 Rear (reinforced),

stripe.
- 4-308 100/90H19 CM1 Front, tube/tubeless, black wall.
- 4-309 80/90H21 CM1 Front, tube/tubeless, black wall.

B

### B. CONTI TOUR - CRUISING / TOURING

Loved by Harley® riders for many years. Specifically developed for heavy touring bikes & cruisers. Proven, dresser-strong, 6 ply rated double belted construction yields one of the highest load ratings in the industry. Exclusive compound & carcass design technology offer exceptionally high mileage, wet grip, load carrying capacity, & comfort. Bold, raised-black lettering on sidewalls for that special custom look. Unique rubber layer under the front tread cushions harshness for a smoother ride while still delivering the firmness needed for hard cornering & braking. Great stability on road seams & rain grooves. Can be matched with the ContiMilestone (CM1/2) to fit a wider range of bikes.

- 4-310 130/90H16 TK17 Rear (reinforced), SOLD EACH  
tubeless, black wall.
- 4-311 140/90H16 TK17 Rear (reinforced), tubeless, black  
wall.
