A. SHINKO H.D.S. CLASSIC AND SUPER CLASSIC TIRES

The high-mileage tire that brings out the best in your Harley®. Features include: Excellent straight-running stability — the flat profile provides a big 4-groove footprint that keeps you rock steady on the long, straight haul. Ultra-heavy-duty Kevlar® breaker — Kevlar® is a breakthrough in tires designed for H-D® cycles. Together with the supple nylon carcass, Kevlar produces a tire with incredible durability. Refined ride comfort — the Kevlar® breaker maintains tread shape, while the flexible nylon carcass beneath soaks up the bumps to give you a smoother ride than ever before. High mileage — the special rubber compound was formulated for greater stiffness. Supported by the rugged Kevlar® breaker, it keeps your bike safely shod, tour after tour.

B. MAXXIS CLASSIC TIRES

These tires feature a unique matched front & rear tread pattern for superior stability and maximum handling and performance. The deep offset tread grooves channel the water away from the contact patch and the offset center rib provides a stable footprint for high speed stability and resist tracking over rain grooves and steel grated bridges. Tube/tubeless.

- 4-459 MT90H16 Rear. Wide white wall. SOLD EACH
- 4-460 MT90H16 Front. Wide white wall.
