 7/16"-14, 7/16"-20, 7/32" Allen Wrench (852A)
 3/8"-16, 3/8"-24, 3/16" Allen Wrench (852B)
 5/16"-18, 5/16"-24, 5/32" Allen Wrench (852C)
 1/4"-20, 1/4"-24, 1/4"-28, 1/8" Allen Wrench (852D)
97B125 9-Piece Stud removal & installation tool set.

CLUTCH SPRING TOOL

Diaphragm clutch spring compression tools. Makes it easy to remove and re-install retainer ring.

97B126 Fits Big Twin 1990 & later and Sportster® 1991 & later.

TWIN CAM® CHAIN TENSIONER

77B910 Chain tensioner pad & pin for Twin Cam® **SOLD EACH**

MAIN BEARING END PLAY TOOL

Sets proper end play by selection of proper spacer. Use when refitting bearings or bearing sets on late models when spacers are not included. Fits H-D Big Twin 1955 & up.

97B160 Main Bearing end play tool.

ADJUSTABLE PISTON RING INSTALLER

Easy and safe piston ring installation without over-expanding the rings. Fits most common piston diameter. From 3/64" to 1/4" thick.

97B176 Adjustable piston ring installer tool.

MAIN DRIVE GEAR WRENCH TOOL

Removes the larger 2-1/4" hex nut from the end of the main drive gear which secures the rear drive transmission pulley. Fits H-D Dyna 2006 models and all Twin Cam 2007-up models.

97B178 Main Drive Gear wrench tool.

FLYWHEEL HOLDING TOOL

Prevents flywheels from turning at the time of disassembly and assembly of engines. It also can be used to check clearance on stroker flywheels. Fits H-D FXD 2006-up, FXST 2007-up, FLST 2007-up, FLT 2007-up V-Twin.

97B175 Flywheel holding tool.

CHAIN BREAKER & RIVETING TOOL KIT

97B21

This Kit is supplied with adequate components to break chains from #35 to #630. It can be used on cam chains and drive chains. Contents:

- Handle
- Lever
- Spring
- Two press plates
- Large anvil and small anvil
- H.S.S. Rivet tip for riveting hollow nose master links
- Body, alignment bolt and push bolt
- H.S.S. 2.2mm breaking tip for most cam chains
- H.S.S. 2.9mm breaking tip for chains #25 - #35 only
- H.S.S. 3.8mm breaking tip for chains #428 - #630
- Upper and lower guide for 2.2mm breaking tip

PINION GEAR LOCKING TOOL

Locks pinion gear when tightening the pinion gear nut. Just align underneath gear and screw into case.

Fits H-D Big Twin between 1954-1999 single cam only. (includes aftermarket and S&S motors).

97B177 Pinion gear locking tool.

CAM GEAR GAUGE PINS

Gauge pins are used to determine correct size cam gears to use if a too-tight or too-loose fit is found. Consult a repair manual for instructions on proper use of gauge pins.

97B181 Gauge pins; .105 diameter.

97B182 Gauge pins; .108 diameter.

SOLD AS PAIR

FORK SEAL & CAP INSTALLERS SET

Ideal tool to install fork seals, dust seals and caps into the bore without damaging the seal lip surface. Set contains: 41mm slider, 39mm slider, 35mm slider, 39mm pom cap

97B147 Fork seal & cap set

PRIMARY DRIVE HOLDING TOOL

Ideal tool to hold the primary chain for removal and installation of the engine sprocket nut without damaging the primary gear. Fits on all H-D big twin models, except 06' Dyna, 07'-up big twins.

97B404 Primary drive holding tool.

CHAIN BREAKER

97B23
This Chain Breaker is equipped with two hardened pins in 4.0mm. It covers the gamut from 420 to 620 chains. The handle can be folded away for easy storage.

MASTER LINK PLIERS

97B24
Many chains use a “master link” that allows the chain to be replaced by hand, over time, wear, dirt and corrosion can make it difficult to separate by hand. Master Link Pliers can solve the problem and make removal and replacement of these master links quick and effortless. Insert the jaws into the master link and squeeze the handles until link is separated.

FORK CAP SOCKET

Ideal tool for removal and installation of the fork cap nut (1-3/8” hex) on most HD Big Twin and Sportster models. The O-ring insert design prevents damage to the top of the cap while operating. This thin socket has a 1/2” square drive.

97B400 Fork cap socket.

WHEEL BEARING REMOVAL & INSTALLATION KIT

Wheel bearing removal and install tool is a must for every shop. Removes and installs 3/4 25mm & 1” sealed bearing for 2000-later wheels.

97B290 Wheel bearing removal & install kit. **SOLD AS KIT**

CAM / CRANK SPROCKET LOCKING TOOL

Tool to lock the camshaft and crankshaft sprockets to remove, replace and torque the sprocket bolts properly.

97B412 2006-present Dyna and 2007-present FL & FXST.

CAM / CRANK SPROCKET LOCKING TOOL

Tool to lock the camshaft and crankshaft sprockets to remove, replace and torque the sprocket bolts properly.

97B413 1999-06 FL, 1999-05 FXD, and 2000-06 FXST.

STEERING HEAD BEARING RACE INSTALLATION TOOL

Ideal tool to install steering head bearing cups and races straight and true in the frames without any damage. Fits all H-D models, including V-Rod.

97B409 Steering head bearing race installation tool.

WRIST PIN REMOVAL & INSTALLATION TOOL

Ideal tool to remove and install piston wrist pins simply. It can hold the piston in place by one person while you drift out the wrist pin. Fits H-D all models including Twin Cams.

97B406 Wrist pin removal and installation tool.

SWINGARM PIVOT BEARING PULLER

Tool for removing & installing the pivot bearing on Softail swing arm and Springer front fender mounts. Fits 1986-2009 H-D Softail swing arm.

97B407 Swing arm pivot bearing puller tool.

CAM CHAIN TENSIONER TOOL

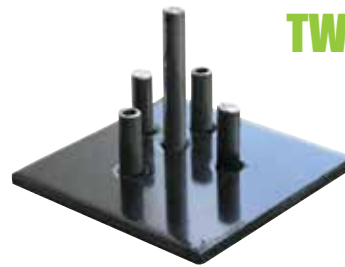

Ideal tool to unload pressure on the primary and secondary chain tensioners when servicing H-D Twin Cam 88 engines. Also checks spring loads on chain tensioners. Fits all 99'-06' FL, 99'-05' FXD and 00'-06' FXST.

97B408 Cam chain tensioner tool for '99-'06 Twin Cam®.

5 SPEED MAIN DRIVE GEAR TOOL

Tool to remove and install the main drive gear and its bearing without removing transmission case. It will not damage bearing or main drive gear during installation.

97B414 5 Speed main drive gear tool.

TWIN CAM® CHAIN TOOL

77B909 Cam chain tensioner shoe installation & removal tool **SOLD EACH**

CAM COVER PULLER

Fits Harley-Davidson 84'-99' 74" and 80" Big Twins as well as 86'-03' XL.

97B419 Cam cover puller for EVO®.

TAPPET SCREEN PLUG TOOL

Ideal tool to remove the tappet oil filter screen plug without removing exhaust pipes. Can be used with other slot type plugs. Works with a 3/4" open end wrench. Fits H-D Big Twin models with slotted plug head.

97B411 Tappet screen plug tool.

FLYWHEEL NUT SOCKET TOOL SET

Low profile, all sockets give 100% nut coverage. Sockets end are machined flat to eliminate rounding off the flywheel nut. Made from chrome-moly steel and heat-treated for strength.

Set provides 5 sockets: 1-5/16" x 1/2" drive, 1-1/2" x 1/2" drive, 1-1/4" x 1/2" drive, 1-5/8" x 3/4" drive, 1-3/8" x 1/2" drive

97B410 Flywheel nut socket tool set.

INNER CAM BEARING CAM BEARING REMOVAL & INSTALLATION TOOL KIT

Fits all H.D. Twin Cam 88 engines. Inner cam bearing removal tool. Ideal tool to remove the bearing easily without damage to the crankcase and also prevents the pin rollers from falling into the crankcase.

97B415 Inner cam bearing removal & installation tool kit

OUTER CAM BEARING PULLER

It is designed to remove the bearing straight from the camshaft without slipping or binding. Pat. Pending

97B423 For H-D® 1999 – 2006 models.. **SOLD AS KIT**

PISTON PIN KEEPER TOOL

Ideal tool to install retaining ring in piston. Installs "Round Circlip" rings in one step without destroying ring and keeps the wrist pin safety possible.

Applications:

All H-D Big Twins 83'-present single cam only (includes aftermarket motors).

All H-D Sportster late 85'-present
Buell 87'-10', except 1125R

97B416 Piston pin keeper tool.

MAIN SHAFT SPROCKET NUT SOCKET

Ideal tool to remove and install the nut that holds the trans. sprocket on.

The spacer can be threaded onto the main shaft, it will stop the tool from slipping when torquing. Inner collar will retain wrench to nut for safer surface work. Tool comes with a 1/2" drive square hole.

97B420 Main shaft sprocket nut socket.

INNER CAM BEARING PULLER

Easily removes inner cam bearing without damaging the crankcase. It also can keep rollers from falling into the crankcase during removal. Pat. Pending

97B424 For H-D 57-90 Sportster, 57-85 XL and 87-90 Buell **SOLD AS KIT**

TRANSMISSION DOOR REMOVER TOOL

Use to remove the complete door with gears and shafts from the transmission. Just prepare the trans for disassembly, bolt this tool to the outside of door, and place the two supplied press pins into the two screw holes of trans case. Thread in two of the screws, securing the door to case, and the door is pulled from case. Can be used with transmission in frame.

97B426 Fits all 2006 Dyna and 2007 FLHT & FXST. **SOLD AS KIT**

BALANCER INNER BEARING INSTALL/REMOVE

Used to install or remove the inner balancer bearing mounted in the left engine case. It can all be done on a work bench without using an arbor press. Fits all Beta Twin Cam models® 2000 to present. Pat. Pending

97B429 Balancer inner bearing install / removal tool. **SOLD AS KIT**

ALTERNATOR ROTOR REMOVER

It will protect threads on sprocket shaft from damage while pulling rotor free from its magnetic hold.

97B425 For Harley-Davidson® 1997 to present FLHT Ultra or any Big Twin with a 45 AMP high output charging system. **SOLD AS KIT**

CHAIN ADJUSTER & REPLACEMENT SHOE KIT

FOR '06-'17 DYNA, '07-'17 SOFTAIL, '07-'16 DRESSER, 09-16 FL TRIKE MODELS

77B912 Revox manual primary chain adjuster kit replaces OEM 36500020. Fits: 06-17 Dyna, 07-17 Softail, 07-16 Dresser, 09-16 FL Trike models.

CRANKSHAFT TURNING / ROTATING TOOL

Tool to rotate your crankshaft, turning your engine over while it is in the chassis or on the workbench. This engages the splines on the primary (left) side of the crankshaft and can be turned using a 3/4 inch wrench on the hex. Fits H-D Big Twins 1954-2005.

97B431 Crankshaft turning/roating tool.

CLUTCH ALIGNMENT TOOL

Toll to align the clutch plates during assembly of the clutch basket. For H-D 06'-08' Night Rod, 07'-15' Night Rod SPecial, 06'-07' Street Rod and 02'-15' V-Rod models.

97B432 Clutch Alignment Tool. **SOLD EACH**

TWIN CAM® HYDRAULIC REPLACEMENT SHOE

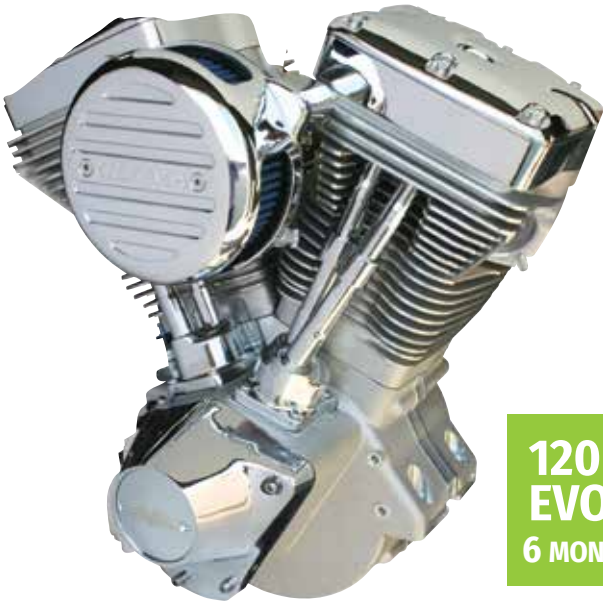

77B911 2006 Hydraulic replacement shoe.

MOTORCYCLE JUMPER CABLE

The answer to starting that bike with a dead battery & no kick starter. This set of heavy duty cables measures over 5 feet long and is still compact enough to carry with you.

97B5 Jumper cables. **SOLD EACH**
