ELECTRIC THROTTLE HEATED GRIPS FOR 1" HANDLEBARS

OE Style heated grips with innovative thumb switch design which enables riders to easily scroll through temperature levels without taking a hand off the handlebars. Features soft to the touch rubber comfortable for short or long rides. Fits HD® electronic throttle & fly by wire.

- Universal fitment designed to fit most H-D® models
- 5 Temperature levels to choose from
- 5 color LED indicator to display temperature setting in use
- Low battery cut-off protection

- 35P56** Apollo-X heated hand grips, Black
- 35P57** Titan-X heated hand grips, Chrome.

TORNADO II HAND GRIPS

The Tornado II grip sets are CNC machined from billet aluminum and are available in a beautiful chrome or black anodized finish. They also feature non-slip hard wearing black rubber for fail safe operation.

- Fits 1" dia. handle bars, all HD models, twin cable throttle applications.
- 35P14** Chrome, Tornado II grip set. SOLD AS SET
 - HD 08"-up touring models with electronic throttle.
 - 35P17** Black anodized, Tornado II grip set. SOLD AS SET

IMPORTED THROTTLE ASSEMBLY

- Assembly with chrome plated end comes with black rubber grips. Has anchor to hold throttle cable.
- 35P6** Assembly for 1" handlebar. SOLD AS SET

THROTTLE SLEEVES

Replacement throttle sleeves for H-D®. Single or dual cable styles.

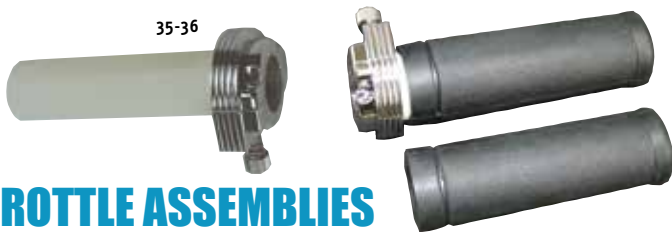

- 35P1** Single cable. Fits 1973 thru 1980. SOLD EACH
- 35P2** Dual cable. Fits 1981 thru 1995.
- 35P3** Dual cable. Fits 1996 & later.

INTERNAL THROTTLE ASSEMBLY

Designed to eliminate traditional throttle assemblies. Similar to early model throttles. This design allows you to run a single throttle cable through your handlebar and out of view. Requires cutting off the right end of the handlebar.

- 35P105** Internal throttle assembly for 1" dia. bars. SOLD EACH

1-1/4" CHROME & BLACK SWEDGED HANDLEBARS

These swedged handlebars have a unique smooth taper transition from the 1-1/4" diameter to the 1" area for mounting the stock OEM style 1" handlebar controls or any 1" custom controls. Also this taper allows you to rotate the master cylinder to any position to clear the bars with any brake line. These bars are made with CNC bender for a smooth radius at each bend. Each handlebar comes with a fishing wire already installed for easy access of pulling your wire harness through the bars. Notched bar end for fly-by-wire applications. Can also be used w/ standard throttle cable applications
